WORK EXPERIENCE

Senior Software Engineer

Siemens Technology and Services Limited

09/2023 - Present

Bengaluru, India

Achievements/Tasks

- Acting as the Generative AI Advocate for the sub-segment, driving the adoption of emerging AI technologies, defining best practices, and mentoring teams on leveraging GenAI to accelerate development workflows.
- Transformed a Generative AI hackathon PoC into a productized tool (Award-winning - reference Value Creator award) , impacting 85% of the users/processes.
- Collaborated with a global engineering team to integrate a dynamic load management algorithm, resulting in a 35% improvement in resource allocation.
- Designed and developed an algorithm to optimize the charging process for a fleet of vehicles, ensuring efficient power allocation and utilization.
- Eliminated a critical, multi-year legacy memory leak, reducing out-of-memory pod crashes by 100% and significantly increasing microservice stability.
- Incorporated smart charging strategies to minimize energy wastage and reduce charging times, enhancing operational efficiency and cost-effectiveness.

Software Engineer

Siemens Technology and Services Limited

04/2022 - 09/2023

Bengaluru, India

Achievements/Tasks

- Implemented an advanced lazy loading technique that improved application memory utilization by 15% and enhanced user experience on high-traffic modules.
- Quickly scaled up in learning a new language (Python) and assumed responsibility for a that microservice, overseeing its development and enhancement processes.
- Refactored legacy Cypress tests to eliminate race conditions, leading to a 20% decrease in intermittent failures and saving manual regression testing hours.
- Mentored a college student who was part of a scholarship program.

Fullstack Developer

LumiQ.ai

12/2021 - 04/2022

Chennai, India

Achievements/Tasks

- Worked in Insurance domain.
- Created a flow to reduce the manual file submission checklist.

WORK EXPERIENCE

Software Engineer - I

HashedIn by Deloitte

07/2021 - 12/2021

Achievements/Tasks

- Lead the UI team which was one of the top six in the hashedIn product demo.
- Acted as the lead for the UI team in the Banking Domain.

Bengaluru, India

Systems Engineer

Infosys Limited

05/2019 - 07/2021

Achievements/Tasks

- Led the development and deployment lifecycle (code review, deployment) for the Infosys Meridian Platform, earning the Infosys Awards for Excellence.
- Built a project portal to ease the onboarding of the employees from bench into the appropriate projects based on their skill set.
- Developed many projects from scratch and worked in multiple projects concurrently and Mentored three projects.

Mysuru, India

HONOR AWARDS

Path Finder (09/2025)

Siemens Technology and Services Limited

- For exception technical ingenuity and cross functional impact

Value Creator (12/2024)

Siemens Technology and Services Limited

- Got the prestigious award for a doing a POC which was later integrated with the application

Infosys Awards for Excellence (01/2021)

Infosys Limited

- For the outstanding achievement in creating the Systems and Process in Live Enterprise - Infosys Meridian Platform
